

Ignite Your Future

Real Student
Success Stories:

Saugeen Sparks Training Centre is an outstanding group! I was fortunate enough to recently complete two of their programs that they hosted/organized. Saugeen Sparks staff were all very supportive, and knowledgeable in the trade of welding, they gave lots of one-on-one teaching and would be able to answer any questions you had, or know how to find the answer.

They were also supportive to help you start a career in the trades by helping you connect to any groups or companies that you might be interested in having a long-lasting career with. They strive for all their participants to exceed in their future endeavours and are always willing to offer assistance whenever it is needed.

I will definitely be strongly encouraging others to attend any programs that the Saugeen Sparks Training Centre is a part of because it is an experience that will last a lifetime and the connections you make are incredibly valuable. Thank you, Saugeen Sparks Training Centre for the valuable opportunity!

- Greg Stroeder, a UA527 apprentice at Bruce Power

”

These programs have been an amazing opportunity to discover not only my skills and passions but also to grow in what we all hope is our future career. For me and many others this was the foot in the door we needed to kick start our career in trades. I'm thankful for my amazing mentors who took their time to help us all grow as individuals and finished this program with 100% success.

-Emma Stade, now receiving Millwright apprenticeship training with the Millwrights Local 1592

”

They helped me obtain all 4 positions tickets for SMAW and it all started with the Saugeen Sparks Training Centre program. Not only did they make it possible for me to learn and obtain my welding tickets, but they also put in front of us so many opportunities to gain certificates needed in the unions. They brought in union representatives, local companies, so that we can create connections and continue to build our future now that this course is over. Thank you for all of your dedication and hard work.

- Natasha Holder is now enrolled with Fanshawe College's Welding Techniques program
